App Overview & Navigation

CRM ka basic layout aur kaise navigate karein

Layout Structure

App teen main parts mein divided hai:

◀ **Left Sidebar**

Navigation menu jisme sab sections hain.
Collapse kar sakte hain (sirf icons dikhege). 4 groups: Main, Sales, Insights, System.

▲ **Top Navigation Bar**

Current section ka naam, search bar, dark/light mode toggle, aur AI Assistant button.

▶ **Main Content Area**

Jo bhi section select karo woh yahan dikhega.
Smooth animation ke saath switch hota hai.

✦ **AI Assistant Panel**

Top-right ke AI button se open hota hai. Right side se slide in karta hai.

Sidebar Navigation Groups

Group	Sections	Purpose
Main	Dashboard, Leads, Customers, Deals, Tasks, Calendar	Roz ka kaam
Sales	Pipeline, WhatsApp CRM, Email Marketing	Sales tools
Insights	Team, Reports, Finance, Automation, AI Insights	Data & analytics
System	Settings	App configuration

Sidebar Collapse

- 1

Sidebar ke right edge par **small arrow button** hai.
- 2

Click karo — sidebar sirf icons tak simat jaata hai (72px wide).
- 3

Icons par hover karne se label tooltip dikhayi deta hai.
- 4

Dobara click karo — full sidebar wapas aata hai (256px wide).

 **Tip:** Badges (jaise "12" Leads par, "5" Tasks par) unread ya pending items ka count dikhate hain.

Dashboard

Business ka complete snapshot ek jagah

Kya Dikhta Hai Dashboard Par

KPI Cards (Top Row)

Total Revenue, Active Leads, Deals Closed, Conversion Rate — animated counters ke saath.

Revenue Chart

12-month revenue trend — area chart. Hover karne par exact values dikhte hain.

Leads Funnel

Converted, Qualified, In Progress, Cold — pie chart mein lead distribution.

Team Performance

Har team member ki deals aur revenue — bar chart comparison.

Recent Activity

Latest actions (calls, emails, deals) time ke saath.

Top Deals

Highest value active deals with stage aur probability.

Tip: Dashboard automatically load hone par KPI numbers 0 se actual value tak animate hote hain. Isko "animated counter" kehte hain.

Dashboard Se Kya Samjhein

1

KPI cards dekh kar overall health samjhein — Revenue up hai ya down?

2

Revenue chart mein monthly trend dekho — kaunsa mahina strongest tha?

3

Leads funnel mein conversion rate check karo — zyada leads cold toh koi masla hai.

4

Top deals mein priority deals note karo aur unpar action lo.

Leads Management

Potential customers ko track aur manage karo

Lead Status Types

Status	Matlab	Action
 Hot	Highly interested, ready to buy	Turant follow-up karo
 Warm	Interested but needs nurturing	Regular touchpoints
 Cold	Low interest or inactive	Re-engagement campaign

Lead Stages (Sales Funnel)

Discovery → Qualified → Proposal → Negotiation → Closed

Naya Lead Add Karna

- 1 Upar right corner mein **" + Add Lead "** button click karo.
- 2 **Name** aur **Company** (required) fill karo.
- 3 Email, Phone, Expected Value fill karo.
- 4 **Stage** select karo (Discovery/Qualified/etc.)
- 5 **Status** set karo (Hot/Warm/Cold).
- 6 **"Add Lead"** button press karo — lead list mein add ho jayega.

Leads Filter Karna

- 1 Top bar mein status buttons hain: **All / Hot / Warm / Cold**
- 2 Click karne par sirf woh leads dikhenge.
- 3 Stats cards automatically update ho jaate hain filtered data ke basis par.

Tip: Lead Score (0-100) lead ki quality dikhata hai. 80+ = High priority. Score jitna zyada, utna

Lead Card Mein Kya Dekho

Score Bar

Blue progress bar — lead ki conversion probability

Last Contact

"2h ago", "1d ago" — kab aakhri baar contacted tha

Tags

Industry/type labels jaise "Enterprise", "SaaS"

Value

Expected deal value in dollars

Customers

Existing clients ko manage karo

Customer Health Score

Score Range	Color	Matlab
90–100	Green	Champion / Very happy
70–89	Blue	Active, satisfied
50–69	Amber	At-risk, needs attention
0–49	Red	Churn risk — urgent action

Naya Customer Add Karna

- 1 "+ Add Customer" button click karo.
- 2 Company Name aur Contact Person (required) bharo.
- 3 Email, Phone, Value, Segment fill karo.
- 4 Status set karo: Active / At-Risk / Churned.
- 5 Save — customer grid mein appear ho jaayega.

Segments

Customers ko 4 types mein filter kar sakte ho: Enterprise SMB Agency Startup

Deals

Active negotiations track karo

Deal Table Columns

Column	Kya Hai
--------	---------

Value	Deal ki dollar value
Stage	Current pipeline stage
Probability	% chance of closing (color coded)
Owner	Konsa team member handle kar raha hai
Expected Close	Expected closing date

- 1 **" + Add Deal "** button click karo.
- 2 Deal Name aur Company (required) bharo.
- 3 Value, Owner, Stage, Probability set karo.
- 4 Deal list mein add ho jaayega aur stats update ho jaayenge.

Tasks

Team ke kaam track karo

Priority Levels

Priority	Color	Kab Use Karo
High	Red	Aaj hi karna hai
Medium	Amber	Is hafte mein
Low	Blue	Jab time mile

Naya Task Add Karna

- 1 "+ Add Task" click karo.
- 2 **Task Title** (required) aur Priority set karo.
- 3 Due Date, Assignee (team member), Company name bharo.
- 4 Save — task list mein appear ho jaayega.

Task Complete Karna

- 1 Task ke left side par **checkbox** click karo.
- 2 Task "completed" status mein aa jaayega (strikethrough text).

 **Tip:** Filter buttons use karo: All / Pending / In Progress / Completed — taaki focus bana raho.

Calendar

Meetings aur events schedule karo

Calendar Use Karna

- 1 Left side par **monthly grid** dikhai deta hai. Blue dot wale days mein events hain.

- 3
- Month change karne ke liye ◀▶ **arrows** use karo (year bhi change hota hai automatically).
- 4
- Naya event add karne ke liye **" + Event "** button click karo.
- 5
- Title, Day number, Time, Type (Meeting/Call/Team), Color select karo.
- 6
- Save — event calendar par appear ho jaayega.

Event Types

Type	Icon	Use Case
Meeting	 Video	Video calls, presentations
Call	 Phone	Sales calls, follow-ups
Team	 Users	Internal team meetings

Sales Pipeline

Kanban board — deal stages visual track karo

5 Pipeline Stages

Stage	Probability	Matlab
Prospect	10%	Naya potential lead
Qualified	25%	Interest confirm ho gayi
Proposal	50%	Proposal/demo diya
Negotiation	75%	Price/terms discuss ho rahi hain
Closed Won	95%	Deal almost confirmed

Pipeline Use Karna

- 1 Har column ek stage represent karta hai. Deals unke stage mein cards ke roop mein dikhai deti hain.
- 2 Column ke neeche **" + Add Deal "** click karo — us stage ke liye deal add ho jaayegi.
- 3 Total pipeline value har column ke header mein dikh rahi hoti hai.
- 4 Deal cards par company name, value, aur owner dikh raha hota hai.

 **Tip:** Prospect column mein zyada deals ka matlab hai team naye leads generate kar rahi hai. Negotiation column heavy hona chahiye — woh close hone ke qareeb hain.

WhatsApp CRM

Clients ko WhatsApp se directly message karo

WhatsApp Section Features

 **Contact List**

 **Chat View**

Left side par saare WhatsApp contacts. Last message preview aur unread count.

Right side par selected contact ki conversation — chat bubbles format mein.

Broadcast

Second tab — multiple contacts ko ek saath message bhejo.

Templates

Pre-written messages jo quickly send kar sako.

1

Left panel mein **contact select** karo.

2

Right panel mein conversation history dikhegi.

3

Neeche text box mein message type karo aur **Send** karo.

Email Marketing

Email campaigns create aur track karo

Email Stats (Top Cards)

Metric	Kya Hai	Achha Range
Campaigns Sent	Is mahine kitne campaigns gaye	—
Avg Open Rate	Kitne % logon ne email khola	30–50%+
Avg Click Rate	Email mein link par kitne % ne click kiya	5–15%+
Subscribers	Total email list size	Growing ↑

Naya Campaign Banana

- 1 "+ New Campaign" button click karo.
- 2 **Campaign Name** (required) enter karo.
- 3 Status select karo: Draft / Scheduled / Sent.
- 4 Date enter karo (optional).
- 5 **"Create Campaign"** — campaign list mein add ho jaayega.

Quick Templates Use Karna

- 1 Neeche "Quick Templates" section mein koi template click karo.
- 2 **Preview popup** open hogi — template ka content dikh jaayega.
- 3 **"Use Template"** click karo — campaign name pre-fill ho jaayega.
- 4 New Campaign modal khulegi — customize kar ke save karo.

Available Templates

Welcome Email · Follow-up Series · Deal Closed · Re-engagement · Product Update · Event Invite

Status	Matlab
Sent	Campaign ja chuka hai
Scheduled	Future date par scheduled hai
Draft	Work in progress, abhi send nahi hua

Team Management

Sales team ko monitor aur manage karo

Team Dashboard Stats

Team Size

Total team members ka count

Online Now

Abhi active members

Avg Performance

Team ka average performance %

Total Revenue

Poori team ka combined revenue

Leaderboard

Left panel mein revenue ke basis par top performers ranked hain. 🏆 Gold #1, Silver #2, Bronze #3.

Member Card Features

- 1 Har card par **avatar, status dot** (green=online, amber=away, gray=offline) dikhta hai.
- 2 **Crown icon** (👑) top performer par hota hai.
- 3 Card par **hover karo** — Phone aur Mail action buttons appear hote hain.
- 4 **Performance bar** target ke against actual performance dikhati hai.

Naya Member Add Karna

- 1 Grid ke last card par **" + Add Member "** click karo.
- 2 Full Name (required), Email, Role (select from list), Status bharo.
- 3 Save — member grid mein appear ho jaayega.

💡 **Tip:** Performance 100%+ = target exceed kar liya. Green color = overachiever, Blue = on track, Amber = needs support.

Reports & Analytics

Business performance data deep-dive

Time Period Filter

Top-right mein **3M / 6M / 1Y** buttons hain — chart sirf us period ka data dikhata hai.

Available Charts

Chart	Data
Revenue Trend	Monthly revenue line chart
Revenue by Category	Enterprise/SMB/Startup breakdown
Team Performance	Member-wise deal comparison
Lead Conversion	Funnel conversion rates

Finance & Invoices

Invoicing aur revenue track karo

Invoice Status

Status	Matlab	Action Needed
Paid	Payment receive ho gayi	Koi action nahi
Pending	Invoice bheji, payment awaited	Follow up karo
Overdue	Due date guzar gayi	Urgent follow up

Naya Invoice Create Karna

- 1 "+ New Invoice" button click karo.
- 2 Client Name (required) aur Amount (\$) (required) bharo.
- 3 Due Date aur Status set karo.
- 4 Save — invoice list mein INV-001, INV-002 format mein add hoga.

Finance KPIs

MRR

Monthly Recurring Revenue — har mahine guaranteed income

ARR

Annual Recurring Revenue — saalana income

Churn Rate

% customers jo chhor rahe hain. 2% se neeche = healthy

Overdue Amount

Kitna paisa collect karna baki hai

Automation

Workflows automate karo

- 1 Har card par **workflow name**, trigger type, aur run count dikh raha hota hai.
- 2 **Play button (green)** = workflow active hai. Click karne par pause ho jaata hai.
- 3 **Pause button (red)** = workflow paused. Click karne par active ho jaata hai.
- 4 Stats cards mein active workflows ki count auto-update hoti hai.

Naya Workflow Banana

- 1 "+ New Workflow" click karo.
- 2 Workflow Name aur Trigger (jaise "New Lead", "Invoice Overdue") bharo.
- 3 Color select karo.
- 4 Save — workflow list mein add ho jaayega.

AI Insights

AI-powered recommendations aur predictions

AI Insights

Business ke baare mein automated observations jaise "Revenue up 28% this quarter"

Predictions

Confidence % ke saath future predictions: churn risk, deal win probability

Suggested Actions

Next best action recommendations AI ki taraf se

Model Performance

AI model ki accuracy metrics aur last training date

Tip: AI Assistant (top-right button) ek floating panel hai jahan aap CRM se related sawaal pooch sakte hain.

Settings

Account, workspace aur integrations configure karo

Settings Sections

Section	Kya Hai
Profile Settings	Name, email, phone, role edit karo
Security	2FA status, password change
API Keys	API key dekho/copy karo (show/hide toggle)
Workspace Settings	Company name, plan, member count
Notifications	5 toggle switches — kaunse alerts chahiye
Appearance	Dark mode / Light mode toggle
Integrations	Slack, Gmail, WhatsApp, Stripe connect/disconnect
Data & Privacy	Data export, account deletion

Profile Edit Karna

- 1 Profile card mein **"Edit Profile"** button ya Profile Settings expand karke **"Edit Profile →"** click karo.
- 2 Name, Role, Email, Phone edit karo.
- 3 **"Save Changes"** — changes turant profile card mein reflect hote hain.

Settings Items Expand Karna

- 1 Koi bhi settings item click karo (jaise "Notifications").
- 2 Smooth animation se **detail view expand** ho jaata hai.
- 3 Doosra item click karo — pehla automatically collapse ho jaata hai.

 **Note:** Light mode abhi "Coming Soon" hai. Dark mode hi use karo. API key kabhi publicly share mat karo.
